

NAIYAR HASNAIN

Java Full Stack Developer

naiyarhasnain77@gmail.com • +91 9798257187 • [Portfolio](#) • [LinkedIn](#) • [GitHub](#) • Bangalore, India

OBJECTIVE

Aspiring Java Full Stack Developer with a solid foundation in software architecture, scalable backend systems, and responsive web applications. Highly motivated to apply strong analytical capabilities and expertise in Java, Spring Boot, Angular, and SQL to engineer high-performance solutions, with a growing interest in applied AI.

EDUCATION

Indian Institute of Technology (IIT), Patna

Master of Computer Applications (MCA)

2025 – 2027

Pursuing

Maulana Azad National Urdu University (MANUU), Hyderabad

Bachelor of Science (B.Sc.) in Computer Science

2021 – 2024

CGPA: 8.82 / 10.0

TECHNICAL SKILLS

Languages:	Java (Core/Advanced), TypeScript, JavaScript, Python, SQL, C/C++
Frontend:	HTML5, CSS3, Bootstrap, Angular, React.js, Redux Toolkit
Backend & Frameworks:	Spring Framework, Spring Boot, Spring Security (JWT), Spring Data JPA, Hibernate, REST APIs, JDBC, Spring AI (learning)
Python & Data:	NumPy, Pandas, Matplotlib
Databases & Caching:	MySQL, PostgreSQL, Redis (In-Memory Data Store), DBMS
Core CS Concepts:	Object-Oriented Programming (OOPs), Data Structures & Algorithms (DSA), Operating Systems, Computer Networks
Dev Tools & Platforms:	Docker, Git, GitHub, Maven/Gradle, IntelliJ IDEA, VS Code, Postman, OpenAPI / Swagger

PROJECTS

PawBridge – Edge-AI Dog-Request Detector

Sept 2026

Hackathon: Claude Build Day, Claude Creator Commons, Bengaluru (team of 4) • **Tech Stack:** ESP32-H2, Ultrasonic & MPU6050 sensors, 16x2 LCD, Claude Opus + Haiku multi-agent system, live dashboard

- **48-Hour IoT Build:** Built a device that notices when a dog *may* want something – ultrasonic trigger (<30 cm), motion sensor at 10 readings/s, buzzer and LCD in a hand-cut cardboard enclosure.
- **Multi-Agent AI Pipeline:** An orchestrator (**Claude Opus**) sends key video frames to a vision agent and an audio spectrogram to an audio agent (**Claude Haiku**) in parallel; trigger-to-answer in **~17 s**.
- **Evidence-First, Honest AI:** Every result lists sensor, vision and audio evidence with a **confidence score**; code rejects any AI answer that does not start with “possible”.
- **Offline Fallback & Quality:** Local rules give an instant action without internet so the device always responds; shipped working hardware, a live dashboard and **72 passing tests**.

Sports Center – Full-Stack E-Commerce Platform

Tech Stack: Java 21, Spring Boot, Spring Security (JWT), React.js, TypeScript, MySQL, Redis, Docker

- **Architected End-to-End E-Commerce Flow:** Built full lifecycle modules including **product cataloging**, **multi-criteria dynamic filtering**, search, pagination, and persistent order checkout.
- **Stateless Security & Authorization:** Implemented token-based **JWT authentication** with role-based access control and **BCrypt password hashing** via Spring Security.
- **High-Performance Caching:** Integrated **Redis in-memory caching** for shopping basket state management, drastically reducing database overhead and latency.
- **Responsive Modern Frontend:** Engineered an interactive user interface using **React.js**, **TypeScript**, **Redux Toolkit**, and Material-UI supporting dynamic light/dark theming.
- **Data Persistence & API Contracts:** Utilized **Spring Data JPA & Hibernate** for MySQL persistence and documented REST endpoints using **OpenAPI / Swagger**.

CERTIFICATIONS

- **Programming using Java** – Infosys Springboard 
- **Essential Gen AI Certificate** – Google 

STRENGTHS

- Problem-Solving, Strong Logical & Algorithmic Thinking, Fast Learner, Self-Motivated, Team Collaboration
